Summary

Experienced in civil engineering software, proficient in visual Art and graphic design, seeking to contribute to innovative projects while further developing my skills.

Work Experience

Civil Engineer University graduation project October 2024

- Designed a 16-story building.
- Structural analysis using engineering software Etabs Safe Jawad.
- Architectural design for each story using Autocad Revit.

Civil Engineering Farm project September 2022

- Designed a small warehouse with a water tank on top of it
- Calculating the minimum cost of the project.
- Analyzing the loads and water loads using Etabs.
- Analyzing the steel frame holding the water tank Using Etabs.

Logo and Poster Designer Freelance April 2019

- Collaborate closely with clients to understand and incorporate design preferences, ensuring alignment with brand identity.
- Develop visually impactful brand identities through the creation of logos and conceptualized posters.
- Generate innovative design concepts and ideas, considering client input, industry trends, and target audience preferences.
- Maintain consistency in design elements to uphold brand integrity across diverse deliverables.
- Adhere to project timelines, consistently delivering high-quality designs within agreed-upon deadlines.
- Foster clear and effective communication with clients, providing updates and incorporating feedback throughout the design process.
- Stay abreast of design trends, market preferences, and competitor analysis to enhance the relevance of designs.

Civil Engineering Hospital February 7 – July 22

- Designed the interior of the basement 1 and basement 2 of the hospital
- Used Cad files and Revit files
- Calculating the minimum cost of the project.
- Analyzing the loads on the structure frames using Etabs.
- Exporting the Etabs Result to Excel and calculate the right amount of steel and concrete to be used in the project
- 3D drawing of the reinforcement including (columns , beams , shear walls , Matt)

Education

- **Bachelor's Degree in Civil Engineering**
Al Hawash Privet University, 2019 – 2024

Skills

AutoCad - Revit - CSI ETABS - CSI SAFE - Jawad - 3Ds Max - Tekla Structure - Studio 8 - MS Office -
Photoshop - Illustrator
